What is Reiki?

Reiki is a Japanese word which means Universal Life Force

Reiki is an ancient, natural form of hands-on energy transfer, utilizing the Universal Life Force energy.

Reiki is extremely powerful, yet noninvasive and gentle; it is transmitted by soothing touch. The recipient remains fully clothed during therapy.

Reiki may be applied to humans, animals, plants, and even “inanimate” objects such as batteries.

Reiki is a highly effective adjunct to all other healing arts.

Reiki flows into and through the practitioner. Consequently, the practitioner’s own energy is increased during transmission, never reduced or depleted.

Practitioners can use Reiki to help themselves and others regardless of their own personal energy level.

At the 2nd and 3rd degree levels, Reiki healing can be transmitted over any distance and into any space/time. It may be applied to help enhance talents and eliminate unwanted habits.

Reiki is known to foster beneficial changes, and personal growth in the practitioner’s life and helps promote natural healing.
