What is Reiki?

- Reiki is a Japanese word which means Universal Life Force
- Reiki is an ancient, natural form of hands-on energy transfer, utilizing the Universal Life Force energy.
- Reiki is extremely powerful, yet noninvasive and gentle; it is transmitted by soothing touch. The recipient remains fully clothed during therapy.
- Reiki may be applied to humans, animals, plants, and even "inanimate" objects such as batteries.
- Reiki is a highly effective adjunct to all other healing arts.
- Reiki flows into and through the practitioner. Consequently, the practitioner's own energy is increased during transmission, never reduced or depleted.
- Practitioners can use Reiki to benefit themselves and others regardless of their own personal energy level.
- At the 2nd and 3rd degree levels, Reiki healing can be transmitted over any distance and into any space/time. It may be applied to help enhance talents and eliminate unwanted habits.
- Reiki is known to foster beneficial changes, and personal growth in the practitioner's life and helps promote natural healing.
